

# Agilent Science and Technology Virtual Symposium 2020

Date	Time	Track	Presentation Title	Speaker
10-Sep	10:00 - 10:30 AM SGT		Innovation for Quantitation - With Agilent's Triple Quadrupole LC/MS Portfolio	Patrick Batoon, PhD Product Manager of LC/MS Triple Quadrupole, Ion Sources, Nitrogen Generators, and Software systems, Agilent Technologies
10-Sep	10:30 - 11:15 AM SGT		Analytical Solutions for the accurate determination of Nitrosamines produced in the manufacture of APIs and Drugs	Chander Mani, MSc Application Engineer at Agilent Technologies
10-Sep	11:15 - 12:00 PM SGT		Exploring the Great Unknown: Characterizing Complex Mixtures of Environmental Contaminants	Shane Allen Snyder, PhD Executive Director, Nanyang Environment and Water Research Institute (NEWRI) President's Chair in Water Technologies
11-Sep	10:00 - 10:30 AM SGT		Low Energy, High Confidence - Untargeted Screening and Unknowns Identification by High Resolution GC/MS	Paul Contreras Product Manager for LC/Time-of Flight and GC/Quadrupole Time-of-Flight at Agilent Technologies
11-Sep	10:30 - 11:15 AM SGT		Adding value to food and agricultural waste : Immediate and longer-term applications	Vincent Bulone, PhD Director, Research Centre, at The University of Adelaide Adelaide Glycomics Research Consortium for Agricultural Product Development & Fight Food Waste Cooperative Research Centre
11-Sep	11:00 - 12:00 PM SGT		Standard Test Method Development Process at ASTM	George Gonzalez Director, Global Segment Marketing , Agilent Technologies American Society for Testing and Materials (ASTM) - Chairman - Subcommittee D02.D
